

Bio data

Personal Information

Name: **Dr. A. Karthikeyan**

Present Position: Scientist G

Office Address: Institute of Forest Genetics and Tree Breeding, Coimbatore – 641 002, Tamil Nadu, India.

Born: 13th June, 1968

Residential address: 4/181 –A3, Sunrise Crystal Villa. Thadagam road (Somayampalayam), Coimbatore – 641108

Phone: 91-0422-2484164 (O); 91 -0422- 2431395 (R). 9443374119

E mail: karthika@icfre.org; karthikarumugam13@gmail.com

Education

1985 – 1988 Bachelor of Science - Botany
(month and year of passing: April, 1988)
Institution: N.G.M. College, Pollachi, Tamilnadu, India

1989- 1991 Master of Science - Botany
(month and year of passing: May, 1991)
Institution: Government Arts College, Coimbatore, Tamilnadu, India.

1991-1992 Master of Philosophy in Botany
(Specialization; Microbiology and Plant Pathology)
(month and year of passing: December, 1992)
Institution: Bharathiar University, Coimbatore, India

1993-1998 Doctor of Philosophy in Botany
(Specialization: Microbiology; Arbuscular mycorrhiza)
Institution: Bharathiar University, Coimbatore, India

Radio talk

Dr. A. Karthikeyan, Scientist E has delivered a talk on ‘Bio fertilizers and bio control methods for management of diseases in tree crops’ (Tamil) which was broadcast in All India Radio Coimbatore on 22.9.2015. He explained the Institute’s activity on bio fertilizer research, bio fertilizer products such as N fixer for Casuarinas, K mobilizer, and Tricho K. He also explained the production of bio control agent (*Trichoderma viride*) and method of its application to control the diseases of tree crops in nurseries as well as plantations.

Dr. A. Karthikeyan Scientist E has delivered a talk on Disease management methods in tree crops (Tamil) which was broadcast in All India Radio Coimbatore on 27.6.2016. He explained the symptoms

of diseases, initial care on tree seedlings and control strategy of diseases in tree crops. He also told about the preparation of Bordeaux mixture and Trichoderma viride culture for controlling the pathogens in trees.

Webinars:

Sl. No.	Title	Organized by	Date
1	All the microbes are not harmful	IFGTB, Coimbatore	5.6.2020
2	Microbial Diversity	Biodiversity Conservation Foundation of India	12.7.2020
3.	Bio control of bacterial wilt disease in casuarinas clones with <i>Micromonospora maritima</i>	Forest Research Institute, Dehra Dun	18.8.2020
4	Effect of Frankia and Micromonospora on growth and health improvement in Casuarina clones	20 th International meeting on Frankia and Actinorhizal plants organized by Kagoshima University, Takashi Yamanaka (Forestry and Forest products Research Institute) and Shunsuke Utsumi (Hokkaido University), JAPAN	31.5.2021
5	Rehabilitation works carried out in mind out degraded lands using microbes by IFGTB	Group Discussion meeting on Eco restoration and Rehabilitation of degraded lands chaired by the D.G.	28.6.2021

		ICFRE	
6	Beneficial microbes	Urban biodiversity and education	14.8.2021
7	Utilization of beneficial microbes on creation of manmade forest under stressed eco system	IFGTB, Coimbatore	27.8.2021
8	Reclamation of mined out lands using beneficial microbes	ICFRE- FRI on Restoration of degraded lands	29.10.2021
9	Possible bio control agents for bacterial wilt disease in Casuarina	Iron wood (Casuarina equisetifolia) decline conference University of Guam, USA	5.1.2022

Completed Ph.Ds as recognized Ph.D. Guide of Bharathiar University, Coimbatore

K. Chandrasekaran (2016) Characterization and Evaluation of Frankia Strains for growth and biomass improvement of Casuarinas

N.B. Sivapriya (2017) Responses of *Bruguiera sexangula*(Louir) Poir and *B. cylindrica* (Lnn) Blume to indigenous beneficial microbes and their antimicrobial activity against pathogens.

Undergoing Ph.D students: 3

Collaboration:

1.A collaborative project with Bharathiar University on ‘Diversity of Mycorrhizal fungi in medicinal *Bulbophyllum* species (orchidaceae) of the Nilgiri Biosphere reserve, Western ghats and their role in Orchid Conservation’ was got approved from Tamilnadu State council for Higher Education, Govt of Tamilnadu.

2.TNPL –IFGTB Collaborative project on ‘Sustainable pulpwood production through high yielding varieties of nitrogen fixing and drought tolerant trees’ (Component: Improving growth and health in *Casuarina* clones through bioinoculants

Resource person: GSDP Training Programme, TNFA and Bharathiar University.

Others: Nodal officer for Bharathiar University and FRI Deemed to be University.
